Step-by-Step Express Makeup Guide

To master the Rae Morris Express Makeup technique, follow these step-by-step instructions:

1. Skin Prep: Creating a Flawless Canvas

Begin by cleansing your face with a gentle cleanser suitable for your skin type. Follow with a moisturizer to hydrate and create a smooth base for makeup application. Rae recommends using a primer to minimize pores and create a lasting effect for your makeup.

2. Foundation: Achieving Even Skin Tone

Choose a foundation that matches your skin tone and provides the desired coverage. Apply the foundation with a foundation brush or beauty sponge, starting from the center of your face and blending outwards. Use a light touch and build up layers as needed.

3. Concealer: Camouflaging Imperfections

For areas requiring additional coverage, such as blemishes or dark circles, apply a concealer that is one shade lighter than your foundation. Use a small brush or your fingertip to dab the concealer on the affected area and gently blend.

4. Brows: Shaping and Defining

Well-defined brows can instantly frame the face and enhance your eyes. Use a brow pencil or powder to fill in any sparse areas and define the shape of your brows. Brush through your brows with a spoolie to tame them and create a natural look.

5. Eyeshadow: Creating Depth and Dimension

Choose a neutral eyeshadow palette with shades that complement your eye color. Use a fluffy brush to apply a light shade to the entire lid, then add a darker shade to the crease to create depth. Highlight the inner corner of your eye with a shimmery shade to brighten and enhance.

6. Eyeliner: Emphasizing and Defining

To define your eyes, apply a thin line of eyeliner along the upper lash line. For a more dramatic effect, extend the line beyond the outer corner of your eye. You can also apply eyeliner to the lower lash line to create a more intense look.

7. Mascara: Volumizing and Lengthening

Finish your eye makeup by applying mascara to your lashes. Use a mascara wand to apply two coats, starting from the base of your lashes and wiggling the wand upwards. This will create volume and length, making your eyes appear more open and alluring.

8. Blush: Adding a Hint of Color

To add a flush of color to your cheeks, apply a cream or powder blush to the apples of your cheeks. Smile while applying the blush to ensure a natural placement. Use a light hand and blend well to avoid over-exaggeration.

9. Highlighter: Illuminating and Accenting

Highlighting certain facial features can add dimension and enhance your natural glow. Apply a small amount of highlighter to the high points of your

face, such as the cheekbones, brow bone, and Cupid's bow. Use a light touch and blend well to avoid a cakey finish.

10. Finishing Powder: Setting and Mattifying

To set your makeup and prevent it from smudging or fading, apply a translucent or setting powder to your T-zone and any other areas that tend to get oily. Use a large powder brush and tap off any excess powder before applying.
